

FOSTER STONE

INTERNATIONAL

RAT HOLE

Foster Stone is a full service distributor of steel pipe products used in the global energy and construction markets.

First class customer service is our priority.

Foster Stone has the experience and relationships to deliver steel pipe solutions for a variety of applications from foreign and domestic mills.

- » Manage API 5L line pipe mill orders all the way to their final destination, including complete EPC
- » Manage API 5CT tubing, casing, and coupling mill orders
- » Sell truckload quantities from stock of new prime, new surplus, and used materials
- » Provide asset recovery services for surplus and used materials, including removal and disposal of take-up lines

1. API 5L New Prime Project Management

Foster Stone is able to service all project business to the highest standards with our experienced team and strong relationships with our service partners. Our mills are on the AML of many midstream companies.

- » Grade B to Grade X80, with sizes ranging from 1"-60"
- » Inventory management, inspection, repairs, coating, shipping, traceability, claims, and all other services needed to successfully manage a project

2. API 5L New Prime Stock Sales

Foster Stone stocks prime line pipe, ready for coating and delivery to ROW. Our inventory includes many sizes and grades, usually in double random lengths, at highly competitive prices. We have long standing relationships with other suppliers, allowing us to search all corners of the market, as needed, for stock inventory to meet demand.

3. New Surplus, Used Pipe Sales and Asset Recovery

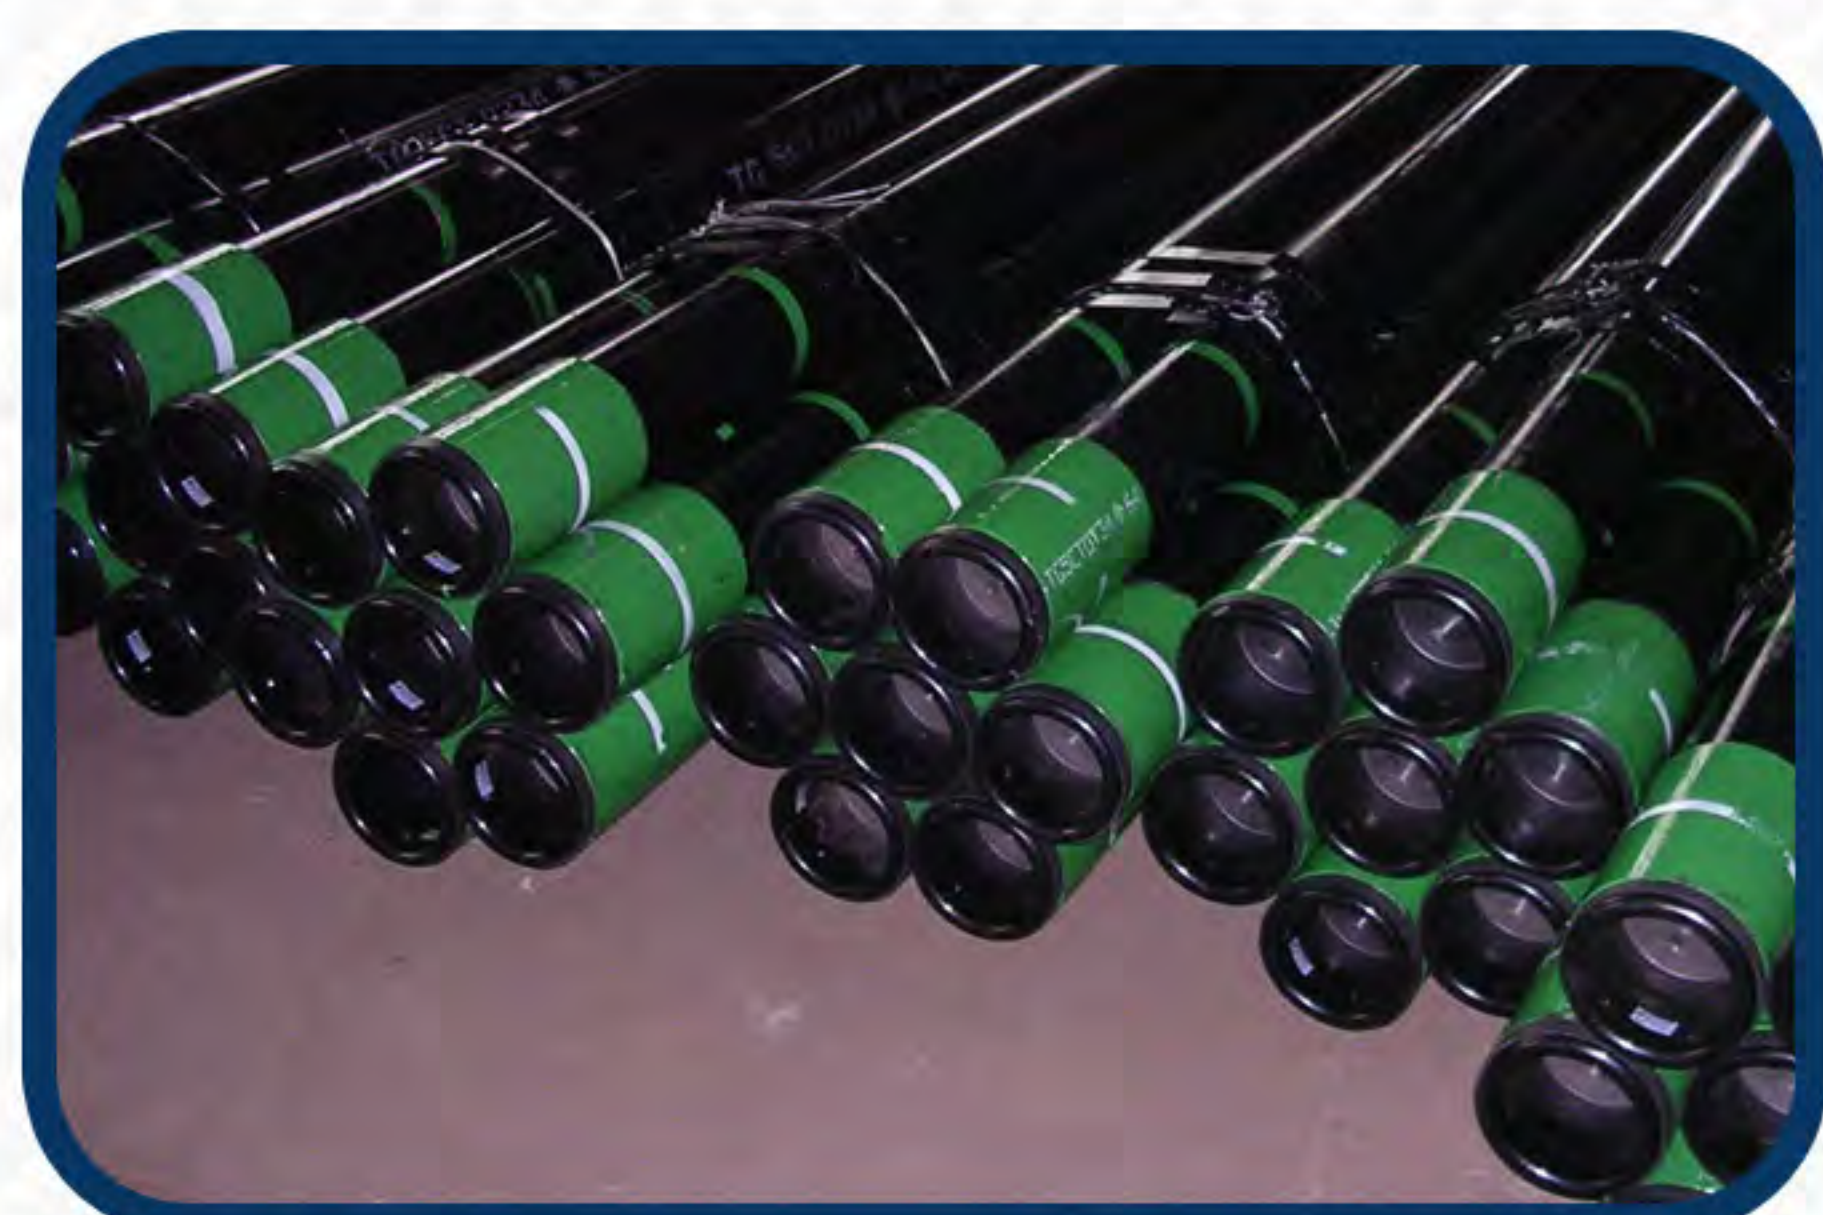

Foster Stone stocks new surplus and used steel pipe for use in construction, road bore, piling, and many other structural applications. We search the market for value when purchasing and in turn deliver value back to our customers that do not need to buy new prime. Foster Stone can help with asset recovery by purchasing your new surplus and used stock items. We also purchase used take-up lines, direct from the midstream companies, and offer the construction services needed to remove and transport these lines. Secondary items are reconditioned as needed and ship directly from the Houston area.

4. API 5CT New Prime Couplings

Foster Stone offers stock and direct mill orders on API couplings, delivered to the final processing location. These couplings are high quality, lab tested in Houston, and backed by a \$10M US-based liability insurance policy. Sizes range from 2-3/8" to 20" and grades from J55 to P110. All couplings are delivered with processing MTRs as well as coupling stock MTRs. Our customers are some of the largest distributors, processors, and mills in North America.

5. API 5CT New Prime Pipe

Foster Stone offers direct mill orders on API 5CT pipe, delivered to the ports of Houston and Los Angeles, or to an inland stocking yard. We can also source your requirements for stocked materials needed for quick delivery. Sizes range from 2-3/8" to 13-3/8" and grades from J55 to P110HC, with API threads or premium connections.

6. High Density Polyethylene Pipe (HDPE)

Foster Stone is able to service all HDPE project business direct from the mill for use in line pipe complying with ASTM F2619 and API 15LE standards, crude oil collection & transportation, gas gathering, landfill methane, multiphase oil-field fluid, shale gas recovery, brine & raw water and most all oil field piping energy applications. Size ranges from 2" to 36" OD with grades in DR6, DR7, DR9, DR11, DR13.5 and DR17.

INDUSTRIES SERVED

- » **Rathole & Conductor**
- » Energy – Oil & Gas
- » Construction
- » Road Bore & Road Casing
- » HDD-Horizontal Directional Drilling
- » Piling
- » Culvert
- » Water Wells
- » Steel Foundations
- » Steel Bridges & Roadways
- » Steel Columns
- » Steel Machine & Welding Fabrication
- » Trenching
- » Dredging
- » Sign Poles
- » Farm & Ranch
- » Fencing
- » Bollards

We are proud of the knowledge and value our company brings to the steel pipe market!

AFFILIATIONS

- » NASPD, Board Member
- » Pipeliners Association of Houston
- » Pipe, Valve & Fitting Roundtable
- » Pile Driving Contractors Association
